

# MILLVILLE INFORMER

April 2017  
Number 264

## City Council Corner

9 March 2017

- Rural Water Association Scholarship Presentation to Meagan Williams.
- Review of Businesses not licensed for 2017.
- Report on Mini Miss Millville Pageant.
- Discussion on Creating a Community Activities Committee.
- Firework Ordinance Discussion.

23 March 2017

- Acceptance of 2018 Contracts for Law Enforcement and Animal Control.
- Discussion of Concern about Volume of Back-Up Alarms on Snow Clearing Equipment at Ridgeline High School.
- Presentation from "The Family Place" and Proclamation of April as Child Abuse Prevention Month.
- Review of Regroup Notification System.
- City Water Audit Report.
- Elementary School Crossing Guard Hiring Update.

## Planning and Zoning Corner

2 March 2017

- Recorder Corey Twedt administered the Oath of Office to Lynette Dickey for another term as commissioner.
- Approved the construction of a restroom next to the Splash Pad at the South Park.
- Recommended to the City Council approval of the Park Meadows Subdivision Final Plat.

- Received training on the requirements for public meetings.
- Reviewed City Council meeting minutes from Jan 12<sup>th</sup>, Jan 26<sup>th</sup>, Feb 9<sup>th</sup>, and Feb 23<sup>rd</sup>.
- Approval of a zoning clearance for a building permit by Josh Barnett, for a residence to be located at 10 North 550 East in Millville.

## Posting Places for Information

There are three places where information is posted within our City to keep you informed of upcoming meetings and events. They are: City Post Office – 70 West 200 North, City Office Building – 310 South 500 East, and the North Park Pavilion – 435 North 100 East.

\*\*\*\*\*

## Dogs Licenses and Park Reservations

For dog licenses and reservations for the North and South Parks, please call Harry Meadows (435) 881-2977

\*\*\*\*\*

## Millville City Easter Egg Hunt

Come join the Easter Egg Hunt on Saturday, April 15<sup>th</sup>, 9:00 am to 1:00 pm, at the Millville South Park.

\*\*\*\*\*

## Dog Licensing

The dog licensing period to have your dogs licensed is past, as of 1 April 2017. Millville City's Animal Control Officer will be visiting residences of last year's dog owners who have not licensed their dog(s) for 2017. The fine, if imposed, (in addition to the license fee) for no current license is \$50.00.

\*\*\*\*\*

**Millville CVTD Representative**

Millville City is looking for a Millville resident to serve on the Cache Valley Transit District Board of Trustees.

The Millville representative will attend Board meetings and represent and vote for Millville's interests and then report back important information to the Millville City Council. If interested, send an email to Recorder Corey Twedt (ctwedt@gmail.com) with a short description of why you would like to represent Millville in this capacity or drop off your response at the City Office.

\*\*\*\*\*

**Miss Millville Pageant**

Come show your community support for our Miss Millville Scholarship Contestants at the upcoming pageant! The pageant is being held at the Stake Center on Saturday, 22 April at 7:00 pm. It will be a night of fun, talent, and excitement as a new Miss Millville is crowned!

\*\*\*\*\*

**Hyrum Senior Center**

The Hyrum Senior Center is open Monday thru Friday from 9:00 am to 2:00 pm. We do take trips on Thursdays. All seniors are welcome. We serve lunch for \$3.00 at noon. Call if you'd like to join us 245-3570. Come on in and try us out at 675 E. Main in Hyrum.

**Mondays-**

3rd - Breakfast & Bingo for a buck 10:30 am (this is a fun time with yummy food).

Board meeting at 1:00 pm

17th - Breakfast & Bingo at 10:30 am

**Tuesdays-**

4th - Chair Yoga with Cammy at 9:30 am

Games 12:30 pm

11th - Chair Yoga 9:30 am

Awesome Tip Class at 11:00 am

Games 12:30 pm

18th - Chair Yoga 9:30 am

Games 12:30 pm

25th - Chair Yoga 9:30 am

Games 12:30 pm

**Wednesdays-**

5th - Colleen Gordin singing

12th - Diane Hardy piano

19th - Anna Anawalt-music

26th - Tour the new EMT building

**Thursdays-**

6th - Mystery Road Trip

13th - Sweet Peas -Women's Club- come and

Join our club

20th - Road Trip to Smith & Edward's,

Lofthouse Cookies and Winco. Lunch in Ogden.

**Fridays-**

Bingo at 12:30 pm each Friday

14th is bring a white elephant gift for Bingo

**SPRING BOUTIQUE**

April 28th - 10:00 am to 6:00 pm

and 29th - 9:00 am to 2:00 pm

Everyone is welcome. FREE

**MAY 10TH IS OUR ANNUAL MOTHER/  
DAUGHTER OR FRIEND DINNER  
AND PROGRAM**

It is always a delightful event. Reserve your seats early.

\*\*\*\*\*

**Welcome Home**

Welcome home Celebration for all Vietnam Veterans. **Friday, May 19, 2017, 1:00 pm to 6:00 pm.**

12:30 pm Registration - USU Branch Campus - 989 S. Main in Brigham City, UT

1:00 pm Veterans Luncheon - USU

3:00 pm Special Presentation of the Journey Home - USU

5:00 pm Pass in Review Homecoming Celebration - Meet at USU - end at Box Elder County Courthouse - 1 S. Main in Brigham City, UT

\*\*\*\*\*

**Animal Control**

Please call (435) 753-7555

.....

# *Annual Drinking Water Quality Report - 2016*

## Millville City

We're pleased to present to you this year's Annual Drinking Water Quality Report. This report is designed to inform you about the quality of the water and services we deliver to you every day. Our constant goal is to provide you with a safe and dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water sources are ground water sources.

I'm pleased to report that our drinking water meets federal and state requirements.

The Drinking Water Source Protection Plan for Millville is available for your review. It contains information about source protection zones, potential contamination sources and management strategies to protect our drinking water. Our sources have been determined to have a low level of susceptibility from potential contamination. We have also developed management strategies to further protect our sources from contamination. Please contact us if you have questions or concerns about our source protection plan.

There are many connections to our water distribution system. When connections are properly installed and maintained, the concerns are very minimal. However, unapproved and improper piping changes or connections can adversely affect not only the availability, but also the quality of the water. A cross connection may let polluted water or even chemicals mingle into the water supply system when not properly protected. This not only compromises the water quality but can also affect your health. So, what can you do? Do not make or allow improper connections at your homes. Even that unprotected garden hose lying in the puddle next to the driveway is a cross connection. The unprotected lawn sprinkler system after you have fertilized or sprayed is also a cross connection. When the cross connection is allowed to exist at your home, it will affect you and your family first. If you'd like to learn more about helping to protect the quality of our water, call us for further information about ways you can help.

If you have any questions about this report or concerning your water utility, please contact Gary Larsen, 435-750-0924. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regularly scheduled meetings. They are held on the first and third Thursday of each month at 7:00 pm.

Millville City routinely monitors for constituents in our drinking water in accordance with the Federal and Utah State laws. The following table shows the results of our monitoring for the period of January 1<sup>st</sup> to December 31<sup>st</sup>, 2016. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not necessarily pose a health risk.

In the following table you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

**ND/Low - High** - For water systems that have multiple sources of water, the Utah Division of Drinking Water has given water systems the option of listing the test results of the constituents in one table, instead of multiple tables. To accomplish this, the lowest and highest values detected in the multiple sources are recorded in the same space in the report table.

**Parts per million (ppm) or Milligrams per liter (mg/l)** - one part per million corresponds to one minute in two years or a single penny in \$10,000.

**Parts per billion (ppb) or Micrograms per liter (ug/l)** - one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.

**Millirems per year (mrem/yr)** - measure of radiation absorbed by the body.

**Million Fibers per Liter (MFL)** - million fibers per liter is a measure of the presence of asbestos fibers that are longer than 10 micrometers.

**Nephelometric Turbidity Unit (NTU)** - nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

**Maximum Contaminant Level (MCL)** - The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment

technology.

**Maximum Contaminant Level Goal (MCLG)** - The "Goal"(MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

**Maximum Residual Disinfectant Level (MRDL)** - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

**Maximum Residual Disinfectant Level Goal (MRDLG)** - The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

**Date-** Because of required sampling time frames i.e. yearly, 3 years, 4 years and 6 years, sampling dates may seem outdated.

TEST RESULTS							
Contaminant	Violation Y/N	Level Detected ND/Low-High	Unit Measurement	MCLG	MCL	Date Sampled	Likely Source of Contamination
<b>Microbiological Contaminants</b>							
Total Coliform Bacteria	N	0	N/A	0	Presence of coliform bacteria in 5% of monthly samples	2016	Naturally present in the environment
Fecal coliform and <i>E.coli</i>	N	0	N/A	0	If a routine sample and repeat sample are total coliform positive, and one is also fecal coliform or <i>E. coli</i> positive	2016	Human and animal fecal waste
Turbidity for Ground Water	N	1	NTU	N/A	5	2016	Soil runoff
<b>Inorganic Contaminants</b>							
Arsenic	N	ND-1	ppb	0	10	2016	Erosion of natural deposits; runoff from orchards; runoff from glass and electronics production wastes
Barium	N	12-202	ppb	2000	2000	2016	Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits
Copper a. 90% results b. # of sites that exceed the AL	N	a. 0.142 b. 0	ppb	1300	AL=1300	2016	Corrosion of household plumbing systems; erosion of natural deposits
Lead a. 90% results b. # of sites that exceed the AL	N	a. 5 b. 0	ppb	0	AL=15	2016	Corrosion of household plumbing systems, erosion of natural deposits
Nitrate (as Nitrogen)	N	778	ppb	10000	10000	2016	Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits
Selenium	N	ND-1	ppb	50	50	2016	Discharge from petroleum and metal refineries; erosion of natural deposits; discharge from mines
Sodium	N	5-13	ppm	None set by EPA	None set by EPA	2016	Erosion of natural deposits; discharge from refineries and factories; runoff from landfills.

Sulfate	N	35-36	ppm	1000	1000	2016	Erosion of natural deposits; discharge from refineries and factories; runoff from landfills, runoff from cropland
TDS (Total Dissolved solids)	N	266-406	ppm	2000	2000	2016	Erosion of natural deposits
<b>Disinfection By-products</b>							
Chlorine	N	400	Ppb	4,000	4,000	2015	Water additive used to control microbes
<b>Radioactive Contaminants</b>							
Alpha emitters	N	0.6-7.1	pCi/l	0	15	2013	Erosion of natural deposits
Combined	N	0.61	pCi/l	0	5	2013	Erosion of natural deposits
Radium 226	N	0.61	pCi/l	0	5	2013	Erosion of natural deposits
Radium 228	N	ND-0,54	pCi/l	0	5	2013	Erosion of natural deposits

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Millville is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

All sources of drinking water are subject to potential contamination by constituents that are naturally occurring or are man made. Those constituents can be microbes, organic or inorganic chemicals, or radioactive materials. All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

MCLs are set at very stringent levels. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect. Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

**MILLVILLE CITY NOTIFICATION SYSTEM**

Millville City is preparing a notification system that can keep you informed of local emergencies, city events or construction projects that might affect you. You must sign up to receive the messages.

Messages can be received as SMS text messages to a mobile phone, voice messages to a landline and/or email messages to an email address.

The information you provide will only exist inside the emergency notification system and will not be used for any other purpose. **Please sign up before June 1, 2017.**

**How to sign up (do one of the options below):**

Go to online form: <https://goo.gl/MBU1Aa> and provide your contact info. Scanning this QR Code will also take you to the online form:

Go to the City Website ([www.millvillecity.org](http://www.millvillecity.org)) and follow the link to the form on the right hand side under "News"

-OR- Fill out the paper form below and mail it back to the City Office (PO Box 309).

Note: You will need to fill out one form for every person in your family that wants to receive notifications. You can opt out of messages at any time.

**Contact Information:**

First Name \_\_\_\_\_

Last Name \_\_\_\_\_

Email Address \_\_\_\_\_

Phone Number (including area code) \_\_\_\_\_

Home Address (not PO Box) \_\_\_\_\_

**Types of Notification you want to receive (you can select more than one):**

- Emergency Messages
- City Events or Announcements
- Road Closures or Construction Projects
